

# NC95

Hybrid ANC Headphones

**USER MANUAL**

# Safety Instructions

## • Hearing safety:

- 1.Headphones cannot be used while charging for your safety.
- 2.DO NOT use the headphones for any other purpose while driving.
- 3.Please use with caution and stop using the headphones in dangerous situations.
- 4.Please do not listen at high volume for a long time to avoid hearing damage.
- 5.For your safety, please do not turn the volume too high while running outside to ensure you can hear sounds in your surroundings.
- 6.Clean only with a dry cloth.

## • Operation Safety:

- 1.Use original or certified cables for charging, and ensure the voltage is within 6.3V. Power will be cut off, and protection mode will activate when the voltage exceeds 6.3V but within 36V. The headphones will be damaged if the voltage exceeds 36V.
- 2.Keep away from children to avoid danger from improper use.
- 3.Headphones cannot be charged or turned on in the extreme temperature.Please use headphones within the operating temperature range:32°F(0°C)–113°F(45°C)
- 4.Do not submerge the headphones in water.
- 5.Do not use corrosive cleaner/oil to clean the headphones.
- 6.Turn off Bluetooth and ANC function to save power when you do not use the headphones.
- 7.Do not modify the product without authorization.

# How to Use

## • ANC Mode

Long press the ANC button for 2 seconds to turn on ANC when Bluetooth is on.  
(The LED indicator will be green when ANC is on, and the green light will be off when ANC is off.)

## • Transparency Mode

Long press the ANC button for 2 seconds to switch between ANC mode, Transparency mode, and Normal mode.

## • Low Latency Mode

Double press the ANC button turn on/off Low Latency Mode when headphone Bluetooth is connected with your device.

## • Use Bluetooth Function

1. Hold the Multi-function Button for 5 seconds to turn the headphone Bluetooth on, then enter pairing mode. (The LED indicator light will flash quickly in blue and red.)  
2. Start the Bluetooth on your mobile phone and find the headphone Bluetooth pairing name " T-fun NC95 " to click it and pair. (The LED indicator light will flash slowly in blue after successful pairing.)  
3. Hold the Multi-function Button for 5 seconds to turn the headphone Bluetooth off.  
**Note:** If the NC95 is not paired with any devices within 5 minutes after Bluetooth is turned on, it will automatically shut down to save power.

Adjust the volume by rotating the Multi-function button clockwise or counterclockwise.

Press the Multi-function Button to play/pause music, or to answer/end call.

Double press the Multi-function button to next song or reject an incoming call.

Previous song: Press 3 times.

Press the Multi-function button 4 times to activate Voice Assistant.

Turn off the headphone first, then long press the Multi-function button 10s to delete Bluetooth pairing

# Bluetooth Multipoint Connectivity

Step 1: Turn on the headphones and enable Bluetooth on your first mobile phone. Search for the "T-fun NC95" and connect to the headphones.

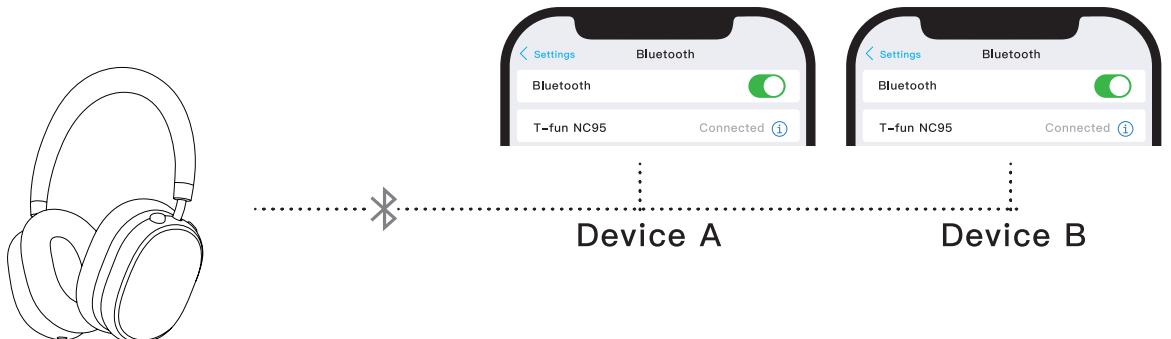

Step 2: Turn off the Bluetooth function on the first mobile phone (do not turn off the headphones).

Step 3: Pair the headphones with the Second device via Bluetooth successfully

Step 4: Return to the first Bluetooth device and reconnect it with NC95 again. Now both of your devices are paired with NC95 with easy switching

# Active Noise Cancellation Technology (ANC)

It is to generate a reverse sound wave equal to the external noise through the noise reduction system, and neutralize the noise, thereby achieving the effect of noise reduction. Its principle is that all sounds are composed of a certain spectrum, if a sound can be found, its spectrum is exactly the same as the noise to be eliminated, but the phase is just the opposite and the noise can be completely cancelled out

## tips:

1. ANC technology effectively quells 95% stable "low frequency" background noise when in noisy environment airplane/subway/car/office/factory/crowd etc.
2. It's not 100% sound cancellation, it can not cancel human conversation voice, because the sound wave is not stable and too much high frequency. Also, cancelling the higher frequency sound is not safe for walking outside.
3. Please use ANC headphone in noise place. It is helpless in quiet place.

## Note:

### Audio playback from the first device takes priority

If you want to listen to audio from the second device, pause the audio on the first device and then press play on the second

### Phone calls take priority

NC95 will automatically receive the call regardless of which device you're currently listening to audio on

## Wired Mode

Headphone support AUX input for wired external audio source connection. Simply turn headphone Bluetooth off and plug in the audio cable.

\* ANC/Microphone/Buttons controls work only in Bluetooth mode, not in wired mode.

# T-fun App

Download the " T-fun " app to enhance your experience.

EQ settings: There are many EQ settings you can choose from in the app to optimize your experience.

Noise cancellation: Choose an active noise cancellation mode to reduce ambient noise according to your surroundings.

- **Transport:** Targets low-end frequencies , like engine and road noise , for peaceful journeys and commutes.
- **Outdoor:** Reduces ambient sounds in cities for less distractions.
- **Indoor:** Reduces voices and mid-frequency noise from coffee shops and other inside spaces.

Transparency: Stay aware of your surroundings by allowing ambient sounds in.

Firmware update: You will be informed once a new version of firmware is detected when you connect the headphones to the app.

## • **App download is optional**

You can use headphones basic functions via Bluetooth/Wired without the APP

## • **Tips**

Install "English" as a second language on the phone (if your phone's language is non-English)

# T-fun APP Download and Connection

## Step 1: How to Download

T-fun APP can be downloaded from Apple App Store, Google Play and T-fun website

Download on the  
**App Store**

GETITON  
**Google Play**

website  
**T-fun.fun**

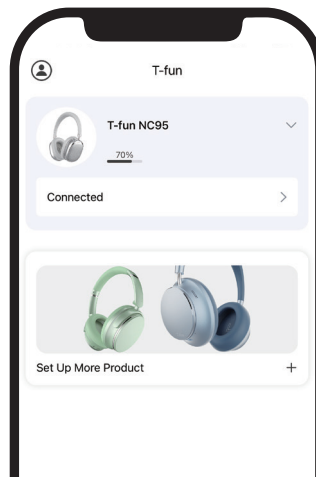

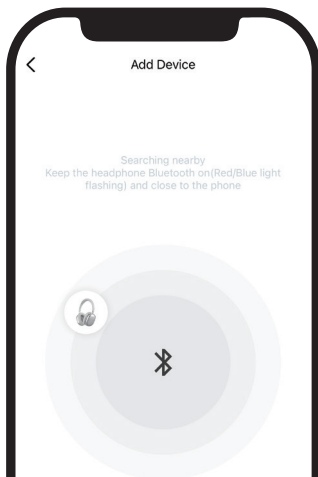

## Step 2: Bluetooth pairing with your phone

Bluetooth Pairing name "T-fun NC95": This allows you to connect your headphones directly without needing to download any app.

## Step 3: Open the T-fun APP and pair with your APP

Bluetooth Pairing name "T-fun NC95-APP": This option is for users who prefer to use the app for enhanced features and functionality.

## • Voice Dialing

Press the Multi-function Button twice to activate the voice dialing function(compatible with iPhone Siri and selected Android voice dialing software)

## • How to Wear

100°inward rotation

Adjustable Headband

# Headphone Specifications

## • LED indicator light

● ● Pairing: Blue and red lights flash alternately
● Paired: Blue light flashes
● Playing: Blue light slowly flashes
● Charging: Red light turns on
● ● Full Charge: Red light turns off or Blue light turns on
● Battery Low: Red light turns on with voice prompt

# Charging

Use the included Type-C charging cable to connect to headphone Charging Port. Connect the other end of charging cable to a computer USB port or USB wall charger under 6.3V voltage.

The LED indicator light will be off or a blue color will be on when full charged. For your safety, the headphones cannot be used while charging.

**NOTE:** Do not charge the headphones if the ambient temperature exceeds the charging range of 32°F (0°C) to 113°F (45°C).

## UPDATE THE HEADPHONES

Upgrade firmware when connected to T-fun app

## CLEAN THE HEADPHONES

The headphones may require periodic cleaning. If the headband or other exterior surfaces need to be cleaned, gently wipe them with a slightly damp cloth.

- Use only a water-dampened cloth. Do not use cleaning products. Do not allow moisture to enter the headphones through the ports or earcups.
- Don't force any dirt or debris into the ports. Don't blow air into or vacuum the ports or the interior of the headphones
